He lost his father at the age of four years. At nine years of age he went to live with G. W. Thorp, of Chesterfield township, where he lived until September 1st, 1861, when he enlisted in the 3rd Ohio Cavalry Co. H, where he served three years and three months, when he was honorably discharged from service.

He returned to his home with G. W. Thorp, where he continued to live

W. Thorp, where he continued to live until his marriage with Miss Anna M. Fulton. June 10th, 1866.

He purchased a farm adjoining that of G. W. Thorp where together with his bride they began the building of their home where he lived until his death. In his early married life Mr. Leggett and wife united with the Disciple church at East Chesterfield where they attended for many years but on account of the cares and stress of farm life they gradually drifted from regular attendance.

He was a charter member of the

from regular attendance.

He was a charter member of the East Chesterfied Grange; he leaves to mourn their loss, one son and two daughters, Mrs. Lula Shipman, John P. Leggett and Mrs. May Weatherby, one son Clinton H, dying in infancy and three grandchildren. He had been in failing health since the death of his wife the 21st of December. He was a loving, generous husband and father, a courtly noble man among men. To him honor and truth was religion. No man could stand before the Judgment bar of God with a cleanter record.

A Splendid Investment Tax-Free in Ohio

All taxes, state, local and federal, are paid at the source by the corporations that sell their 7% perferred stocks through The Geiger-Jones Company. These securities are sold at a price that yields a net income of nearly 7% to the investor.

For example, the 7% Cumulative Preferred Stock of The Gramm Motor Truck Company of Lima, Ohio, is being offered at \$101 per share—a price that nets 6.93% on the investment.

This stock is the unsold portion of a new issue of \$750,000 pre-ferred stock authorized by the company in the fall of 1915, to take care of the phenomenal expansion of its business that occurred during that

The company's certified audit, December 31st, 1915, shows that it earned more than \$590,000 during the preceding twelve months, on a total capitalization of \$1,490,100, of which only \$740,100 is represented by preferred stock. As the total authorized preferred stock is only \$1,250,000, including the new issue, the preferred dividend charges will be only \$87,500 a year. On the same date the company reported tangible, net assets of nearly \$1,900,000, or approximately \$250 for each \$100 of preferred stock outstanding.

The management had expected about \$1,000,000 of sales for 1915, and provided manufacturing facilities and working capital sufficient for a business of \$2,000,000 a year. Instead of this figure, more than \$4,000,000 worth of trucks were manufactured and sold, and substantial additions made to plant and working capital to provide for this large volume of business.

We have prepared a 16 page booklet containing a history of this company and our analysis of its prospects for the future. It includes a detailed financial statement and a digest of the legal provisions we insist upon for the protection of the preferred stockholders. Send for
